▶ In this first edition, these were the main topics:

▶ It was a generally held opinion that ICCA's first edition has been successful. The participants highlighted the multidisciplinary approach and the relevance of the discussed topics.

▶ The Organizing Committee would like to thank all the participants. We hope this experience had contribute in an active way for the knowlege production in the several fields related with Childhood and Adolescence issues.

WE COME BACK IN 2018!

UNTIL THERE,
